

Village of Beulah  
STREETSCAPE MASTER PLAN

# Visualizations

PUBLIC INPUT  
January 26, 2011

## Public Feedback

(Please - pick one up when you arrive and Turn in it in when you leave or fill out and return to the boosters)

What elements of this plan do you support the most on a scale of 1 to 5, 1 being lowest and 5 being highest (Please circle one). In the space provided, please explain why or why not or make any other comments.

1. **Light Emitting Diode (LED)** lighting system with three type tiered system for Benzie Blvd, side streets and Lake Street – provide a dark sky, energy efficient and aesthetic upgrade.  
**1 2 3 4 5**
  
2. **GREENLINKS** (sidestreets) create a unified and strong link to and from the Lake Street – Crystal Lake waterfront and Downtown – Unites the Village’s key assets as one.  
**1 2 3 4 5**
  
3. **Streetscape amenities** using simple native “up-north” materials – Presents a “traditional”, unique feel and visual character to the Village.  
**1 2 3 4 5**

4. **Alternative transportation** support elements (bike racks & lanes, transit stops, new and wider walkways) - Enhance "active streets".

**1 2 3 4 5**

5. **"Gateways"** to Beulah are punctuated by major traffic calming measures / enhancement at 5-Corners and US-31/Benzie Blvd – Announce what the community is all about.

**1 2 3 4 5**

6. **Urban green** - street trees, seasonal planters and stormwater "gardens" - Enhance "places for people" and provide ecological best practice.

**1 2 3 4 5**

7. **Strengthened mid-town intersections** with safer, shorter crossings and enlarged people spaces - Provide enhanced business opportunity.

**1 2 3 4 5**

8. **Clustered Parking** - Provides increased capacity, safety and convenience for patrons and businesses when developed in conjunction with complete streets.

**1 2 3 4 5**

**Thank YOU for your input!** Please provide your name and or affiliation (Optional)
